COMPANY PROFILE

| 01 / 10

Our Story

Rooted in Egypt. Built for the world.

MAYQARA is an Egyptian botanical supply and export brand focused on medicinal plants, aromatic herbs, seeds and botanical ingredients for international B2B markets.

Rooted in Egypt's agricultural heritage, we connect carefully selected botanical resources with the needs of modern food, beverage, pharmaceutical, cosmetic and nutraceutical industries.

Our approach combines botanical authenticity, careful handling, quality-focused processes and professional international trade practices.

EGYPTIAN ORIGIN

Our botanicals are sourced from the fertile lands of Egypt, where nature and tradition meet.

SELECTION

We carefully select botanical materials for their identity, quality and natural character.

PROCESSING

We apply suitable processes to prepare botanicals according to product requirements.

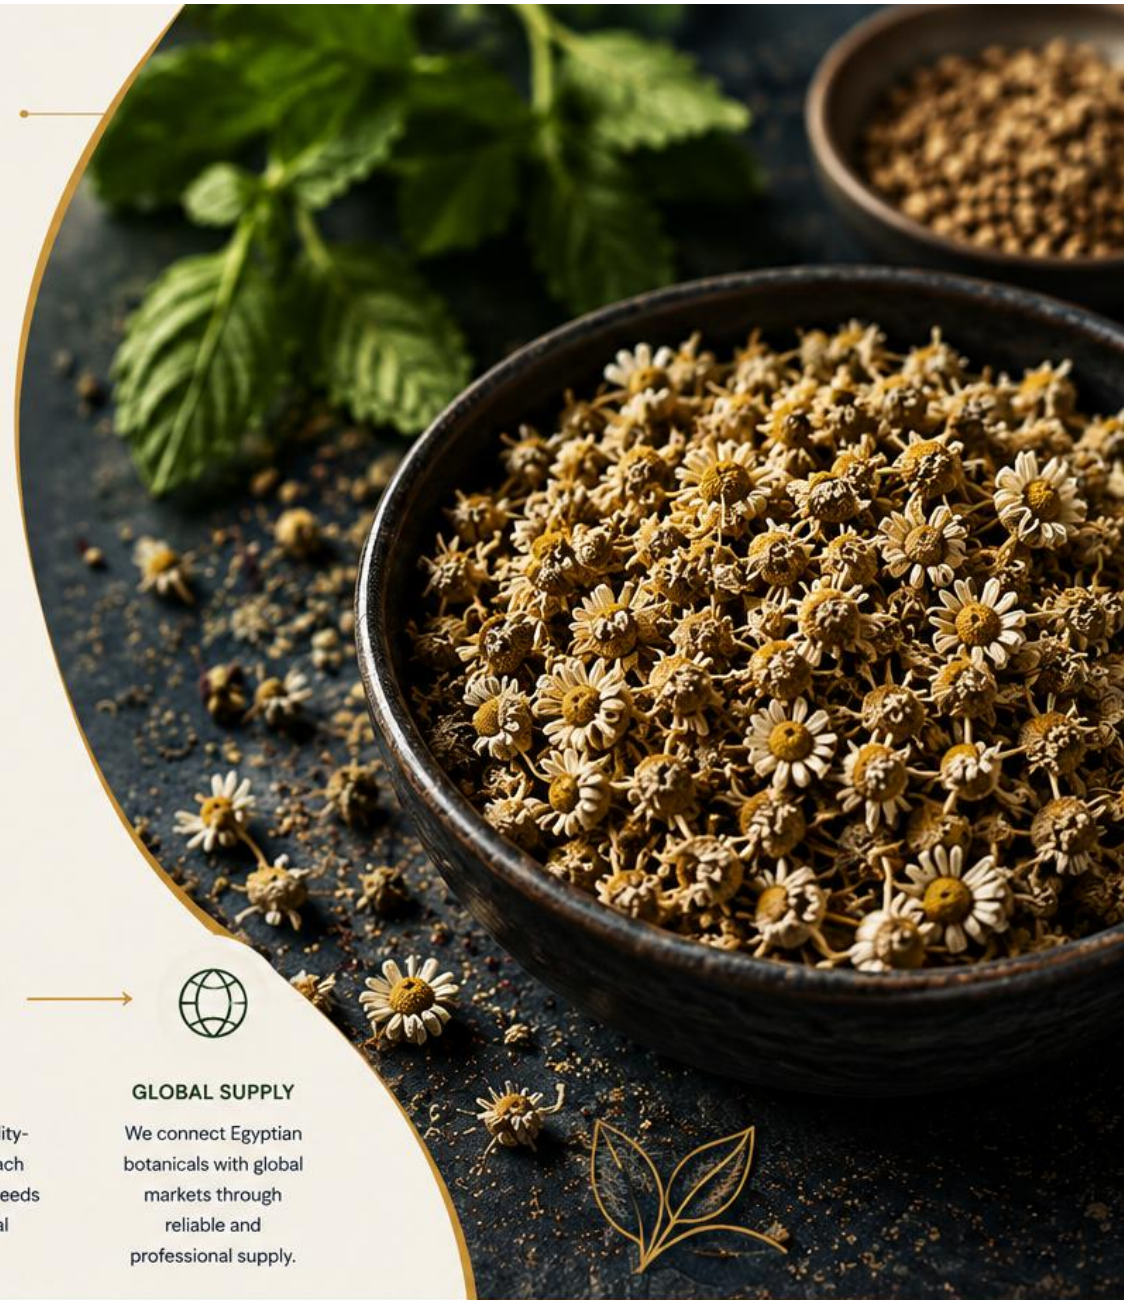

QUALITY

We follow a quality-focused approach aligned with the needs of professional industries.

GLOBAL SUPPLY

We connect Egyptian botanicals with global markets through reliable and professional supply.

Our Philosophy

Quality is not a feature. It is the foundation.

Our philosophy guides every decision we make and every partnership we build.

01 QUALITY

We believe quality begins at the source.

Careful selection and responsible handling form the foundation of every botanical product.

02 INTEGRITY

Clear communication. Honest commitments.

We value transparent business relationships and clear expectations.

03 CONSISTENCY

Reliable specifications for professional applications.

We understand that industrial buyers need consistency, not surprises.

04 RESPONSIBILITY

Respect for nature, people and long-term value.

We aim to build responsible supply relationships that create lasting value.

05 PARTNERSHIP

Your supply chain should feel like a partnership.

We focus on long-term B2B relationships rather than one-time transactions.

Product Portfolio

Selected Egyptian botanicals for global industries.

Our carefully selected range of medicinal plants, aromatic herbs, seeds and botanical ingredients are sourced from Egypt's fertile lands and prepared to meet the needs of international industries.

Quality Assurance

From botanical selection to export-ready supply.

OUR QUALITY JOURNEY

QUALITY PARAMETERS

Our products are evaluated against key quality parameters to ensure suitability for professional applications.

PURITY

Ensuring the product is free from unwanted substances.

MOISTURE

Controlled moisture levels appropriate to the product.

APPEARANCE

Consistent color, size and visual characteristics.

AROMA

Natural aroma retention appropriate to the botanical.

FOREIGN MATTER

Minimizing foreign matter to meet buyer requirements.

PACKAGING INTEGRITY

Secure packaging to protect product quality during transit.

PRODUCT SPECIFICATIONS

Products are aligned with agreed buyer specifications.

Manufacturing & Export Capability

Prepared for professional supply chains.

Our operational journey is designed to meet the expectations of international buyers and support smooth, efficient and reliable global supply.

01

SELECTION

Careful product selection according to botanical identity and buyer requirements.

02

PREPARATION

Handling and preparation appropriate to the product form to maintain quality and suitability.

03

PROCESSING

Product preparation and processing according to agreed specifications and industry requirements.

04

PACKING

Packaging solutions designed around product requirements and shipment conditions.

05

DOCUMENTATION

Professional export documentation coordinated according to shipment requirements.

06

SHIPMENT

International shipment coordination based on agreed commercial terms and logistics arrangements.

We work closely with our partners to ensure every order is prepared with attention to detail, quality and international standards.

Our focus is on flexibility, clear communication and dependable execution across the entire supply journey.

We are committed to facilitating smooth and reliable supply experiences for our global business partners.

MAYQARA

Sustainability at Our Core

Respecting nature. Empowering communities.

We believe true growth comes from working in harmony with nature and supporting the people who protect it.

OUR SUSTAINABILITY PILLARS

RESPONSIBLE SOURCING

We work with local farmers who follow sustainable agricultural practices to protect soil, water and biodiversity.

COMMUNITY EMPOWERMENT

We build long-term partnerships that support local communities and create shared value.

ENVIRONMENTAL CARE

From field to facility, we minimize our environmental footprint through continuous improvement.

ETHICAL PRACTICES

We operate with integrity, transparency and respect for all stakeholders across our supply chain.

SUSTAINABLE FARMING

Encouraging organic farming and natural resource conservation.

FAIR & DIRECT PARTNERSHIPS

Fair prices and long-term collaboration with our farmers.

ECO-FRIENDLY OPERATIONS

Efficient processes and responsible waste management.

NATURAL BY NATURE

Delivering pure, natural and high-quality botanical ingredients to the world.

Sustainability is not a goal — it is our way of doing business.
For a healthier planet and a better future.
